ABOUT

Product manager who turns regulatory complexity into shipped, 0-to-1 B2B SaaS products. Runs user research and usability testing, translates insights into PRDs and prioritised roadmaps, and aligns engineering, design, and compliance around what to build next. Hands-on with AI product development, including LLMs, RAG, agents, prompt orchestration, MCP, and evaluations.

WORK EXPERIENCE

Senior Product Analyst

Aug 2023 – May 2026

Zigram

Gurugram

- Owned requirements and backlog across AML, KYC, and PEP risk-screening features end-to-end, turning regulatory knowledge into build-ready PRDs that closed screening gaps flagged by compliance.
- Validated risk-assessment workflows directly with compliance users through every research and usability testing cycle, then wireframed and prototyped ahead of development.
- Guided feature prioritisation through A/B tests, usage metrics, and ongoing AML/RegTech market analysis, weighing regulatory urgency against engineering effort.
- Coordinated sprint planning across engineering, design, and compliance every cycle to ship features on time against regulatory deadlines.

Research Analyst

Dec 2021 – Apr 2023

Jasper Colin

Noida

- Delivered 15+ research engagements spanning market analysis, customer insights, and competitive intelligence, turning findings into recommendations that directly shaped client product positioning.
- Identified emerging market opportunities and shifts in customer behaviour ahead of competitors, translating research into actionable insights that won new business engagements.

Implementation Executive

Aug 2020 – Feb 2021

Elaachi India

Bangalore

- Rolled out the SaaS product across 30+ restaurant partners, owning every onboarding end-to-end from configuration through testing to go-live in live operations.
- Trained 20+ merchant teams directly and turned frontline feedback into product improvements, removing operational friction and speeding adoption across every rollout.
